# SUMMER CAMP & YEAR-ROUND EVENT REGISTRATION

## BENEFITS

- Clean user interface that looks good on all platforms*.
- Event registrations can be configured to reserve spots, to name participants, to estimate spots ahead and name participants later, or you can build a custom form for a custom event.
- Clear communication of event details to users including a Google Map of the location, registration dates, real-time availability, pricing details, and more.
- Conflict-free merit badge & class scheduling with on-demand advancement reports.

## PRICING

**$500/yr + 1%**

- 1% fee is capped at $4.00 per person and is based on the registration fees and class fees you charge for your events.
- No fees for cancelled events.
- Setup Fee $795 (one-time only)
- See tentaroo.com/pricing for more info.

# SUMMER CAMP REGISTRATION

## BENEFITS FOR COUNCIL AND CAMP STAFF

- **Communicate** with users using our invoicing and "message center" features. Reduce your workload by utilizing our automated registration, welcome and payment messages.
- **Allow self-registration** to encourage more accurate numbers that will help your camp director develop a better budget, order supplies, maximize camp capacity and free up staff to work on other projects.
- **Encourage your users to pay early** by limiting class registrations to those users who have met specific payment requirements.
- **Flexible pricing** for in council, out of council and provisional tiers with ability to assign pricing by participant type. Support for automated free-leader ratios and late fee calculations.
- **Camperships** are visible to your users on their invoices with detailed amount information for each camper. Camperships and other discounts can be awarded to specific campers.
- **Campsite rankings** can be enabled to let your users tell you which campsite they'd like to stay in. Staff can then assign campsites and keep tabs on capacity plus what's available.
- **Class scheduling** has multiple options available such as block and/or day based scheduling, minimum age requirements, custom classes and waitlisting. Detailed reporting for check-in, class schedules, attendance and advancement tracking is provided.
- **Track attendance and requirements completed** at camp with real-time updates. Empower users to monitor advancement updates on their phones at camp. Any data entered is available indefinitely to both council/camp staff and your end users.
- **We're here to help** every step of the way. We respond quickly to your messages and if you need more support you can self-schedule a video conference for a face-to-face chat with a Tentaroo expert.

# YEAR-ROUND FACILITY BOOKING BENEFITS

- Increase camp revenue by letting your users reserve camp properties in your off season.
- Trip-based system allows users to reserve multiple facilities together for easier reporting and billing.
- Users can view availability for all facilities before starting a reservation.
- Enable/disable online booking for entire locations or specific facilities; admin-only facilities will still show available dates but reservations will be controlled by the council.

## PRICING

**$500/yr + 1%**

- Unlimited properties and facilities.
- No fees for blackout dates.
- Setup Fee $795 (one-time only)
- See tentaroo.com/pricing for more info.
